Training Programme on Decentralised Wastewater Treatment System (DEWATS™)

Training Objective & Outcome

The objective of the training programme is to impart engineering skills for designing and implementing Decentralised Wastewater Treatment System (DEWATS™)

After the training, the participants will be able to review and assess the current state & context of wastewater system, set environmental and sustainability objectives and design a sustainable solution appropriate to the context.

Training Contents

- Introduction to wastewater and its effective management
- Different approaches & technologies for wastewater treatment
- Introduction to DEWATS™
- Feasibility and initial project planning
- Preliminary planning and design of DEWATS™
- Implementation of DEWATS™
- Operation and maintenance

Target Participants

- Engineers from Municipalities
- Development Professionals
- Civil and Environmental engineering students
- Private Companies
- Other interested professionals in water, wastewater and sanitation sector.

Training Programme

- Highly interactive training including demonstration and field visit.
- Duration: is 4 days and the sessions are timed from 09:30am to 06:00pm.

Trainers

Expert Trainers from CDD Society, Bengaluru

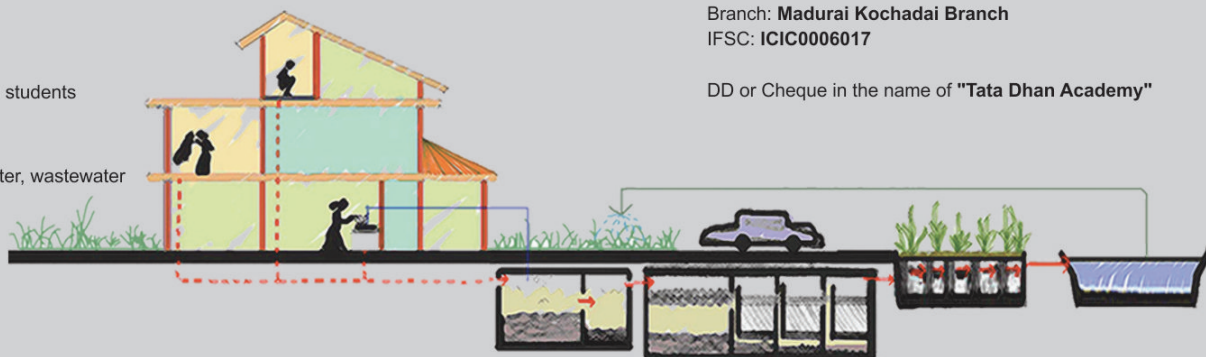

Fee & Payment Method

- Rs. 7,000 for Residential (includes cost of lodging and boarding)
- Rs. 5000 for Non-Residential

Fee & Payment Method

Organised by:

Tata-Dhan Academy (TDA) is one of the premier development schools in India. It is dedicated to grooming development professionals who strongly believe the development of society as the sole mission of their lives. It offers short duration education and training programmes for practitioners in the development sector at the national and international levels. It has taken up specialisation in micro insurance, disaster risk mitigation and management and water for domestic and agriculture uses through its resource centres: (i) Advanced Centre for Skill and Knowledge on Micro Insurance (ASKMI), (ii) Advanced Centre for Enabling Disaster Risk Reduction (ACEDRR) and (iii) Water Knowledge Centre (WKC). The Academy offers one-year Post Graduate Development Executive Education Programme (DEEP) for those who are working in NGOs for more than three years with age of less than 35 years to build their conceptualisation skills with management perspective.

Water Knowledge Centre (WKC) aims at enhancing the knowledge and practice on integrated water resource management by working with peoples' institutions, government and non-government organizations, technical institutes, research and academic institutes and funding agencies. WKC would provide a platform to identify, appreciate and nurture local knowledge and wisdom on community-led Water resources management. It will encourage the practitioners promoting collective action around water resources management and aid influencing state and national policies in tune with community's needs and aspirations.

In Association With:

Consortium for DEWATS Dissemination (CDD) Society is a not-for-profit organisation comprising of like-minded network partners seeking to promote the provision of basic needs services in urban and rural environment through the promotion of decentralised solutions in

- Community Based Sanitation (CBS)
- Wastewater Treatment Systems (DEWATS™)
- Solid Waste Management (DESWAM)
- Citywide DBNS Planning (CSP)
- Faecal Sludge Management (FSM)

Training on Decentralised Wastewater Treatment System (DEWATS™)

Registration Form

Training Date: March 7 -10, 2018

Training Venue: Tata-Dhan Academy, Madurai

Name:

Date of Birth (dd /mm/yyyy):

Gender: Male ☐ Female ☐

Name of the Organisation:

Designation:

Department /Section:

Educational Credentials:

Degree	Field if Study	Year
