

Fifth International Conference on Water, Energy and Environment (ICWEE/5)

Main Building, AUS | February 28–March 2, 2017

The conference promotes a global collaboration among faculty, students, engineers and managers on ecological economics and water, energy and environment resources management. It provides a forum for distinguished guest speakers and practitioners to address recent research results and to present and discuss related issues in energy, water and environment. A number of leading practitioners, policy makers and researchers will be invited to deliver keynote lectures.

The conference will include a peer-reviewed technical program, demos, short papers, posters, invited sessions, industrial presentations and exhibitions on topics such as:

- water regulation and policies
- water resources and sustainable development of the region
- progress in water protection and remediation
- desalination
- wastewater treatment
- energy
- environmental impact
- economic management and development of water resources
- environment
- other water-related topics

Submitting Abstracts

All extended abstracts (two pages in length) should be submitted via the conference website <https://cmt3.research.microsoft.com/User/Login?ReturnUrl=%2FICWEE2017> or by email to ICWEE2017@aus.edu.

Presenters are solely responsible for submission and subsequent receipt of their abstracts. All extended abstracts must be received by September 30, 2016.

For accepted abstracts, at least one author must register for the conference in order for the paper to be published in the conference program and proceedings.

Posters

We encourage our colleagues to limit their submission to their best poster abstract. No more than two total abstracts per author will be allowed (one poster and one paper.)

Papers

All submissions must be in Microsoft Word format. Each submission should include a separate title page listing the following: title of paper, author(s), organization affiliation(s), complete mailing address, email address and keywords (three to four keywords). All abstracts will be reviewed by members of the technical committee.

Selected manuscripts will be published in a special issue of selected journals such as Desalination and Water Treatment and International Journal of Energy Research after the normal peer-review process.

Tutorials and Exhibitions

The conference constitutes an excellent opportunity for participants to hear from experts about the latest developments in water and environmental technology and to get practitioners' views of innovative practices in some of the leading organizations. Companies and individuals are welcome to submit

proposals for tutorials (short courses) and exhibitions to be held in conjunction with ICWEE 2017. Please send your proposal by email to ICWEE2017@aus.edu.

The committee will also provide facilities for exhibitors during the conference. For more information, please email ICWEE2017@aus.edu.

Student Poster Contest

The contest is open to graduate and undergraduate students. All student posters must be submitted during the call for papers and must be accepted for the students' poster session to be entered into the contest.

Posters for the contest will be displayed and winners will be announced at the general poster session on March 1, 2017. Cash prizes will be given to first, second and third-place prize winners at the student awards ceremony.

Poster extended abstracts must be submitted by September 30, 2016.

Important Dates

Paper extended abstract submission:	October 31, 2016
Poster extended abstract submission:	October 31, 2016
Notification of acceptance:	November 15, 2016
Tutorial/special session proposal:	October 30, 2016
Paper submission:	November 30, 2016

Registration Fees

Early Registration	US \$400 (By November 15, 2016)
On-Site Registration	US \$500
Student Registration	US \$200
Student On-Site Registration	US\$250

Registration fees include a leather briefcase, the conference proceedings USB, daily lunch, and the conference banquet dinner.
