

MICRO2018

INTERNATIONAL CONFERENCE
19-23 NOVEMBER 2018 LANZAROTE

FATE AND IMPACTS OF MICROPLASTICS: KNOWLEDGE, ACTIONS AND SOLUTIONS

Building on the work shared during *MICRO 2016*, we are delighted to invite the scientific community and stakeholders to participate in:

MICRO 2018. Fate and Impact of Microplastics: Knowledge, Actions and Solutions

This international conference will take place from 19 – 23 November 2018, Lanzarote, Spain.

Participants are invited to submit abstracts for oral or poster presentations on the **following topics**:

- Marine Ecosystems
- Freshwater bodies
- From MACRO to nano
- Social change and behaviour
- Human health
- Policy

We welcome complementary sessions or side events, please submit your proposal by 7 March 2018.

For more information: <http://micro2018.sciencesconf.org>

While the impacts of microplastics in marine ecosystems have been reported in the literature since the 1970s, many questions remain open. MICRO 2018 provides an opportunity to share available knowledge, fill in gaps, identify new questions and research needs, and develop commitments to operationalise solutions; MICRO 2018 will be a chance to reconvene, share what we have learned, and generate momentum for the work that remains to be done.

Abstract Submission Deadline: 21 June 2018

The organizing board and scientific committee look forward to seeing you in Lanzarote!
