

ACTIVATE WATER WITH THE POWER OF ELECTRONS

VG-7

H₂O

Internal Configuration
for Generating Hexagon
Field Energy

The secret of super active water consists of strong correlated electronic water.

- International patent process
- Restructures water molecules by passing through the VG-7 HEXAGON FIELD ENERGY process
- VG-7 action revitalizes by exciting the energy field of water
- No electricity required
- No filters required
- No aerators necessary
- No maintenance necessary
- Eliminates odor

Types of Industry

- Home/commercial use
- Waste water
- Fruit and Vegetable processors
- Live stock (cattle, pigs, chickens)

Installation Instructions

To deal with pipes of various sizes, we have a 50-mm bore version for commercial/industrial facilities, and 20-mm bore version for household use.
