

# Open for Submissions

- *npj Clean Water* publishes high-quality papers that report cutting-edge scientific and applied research that helps ensure a supply of clean water to populations via physical, chemical and biological approaches.
- Papers that consider the relevant policy and societal issues are also welcomed.
- Fully open access, ensuring a wide readership; read papers for free at our website.

Editor-in-Chief: **Eric M.V. Hoek** (UCLA/Water Planet, Inc.)
