

waterinmining2016

5th International Congress on
Water Management in Mining

May 18~20, 2016

**Hotel Grand Hyatt,
Santiago, Chile**

gecamin.com/waterinmining

Innovative, cost-effective and sustainable water management in mining

PRELIMINARY PROGRAM

We have received more than 80 abstracts from authors from 15 countries among which are: Australia, Canada, Chile, Peru and USA.

Simultaneous Spanish-English interpretation will be available in all sessions. Oral presentations can be made in any of these two languages.

List of abstracts received can be found on gecamin.com/waterinmining

AREAS OF INTEREST

Integral water management throughout the mining life cycle • Desalinization and seawater use • Alternative water supply • Efficient water use and water recycling • Water accounting • Mine dewatering • Acid rock drainage: prediction, prevention and treatment • Water footprint • Cost-effective water management

**Early Bird
Registration**

**10% off until
March 18**

Executive Committee

CHAIR

Mauricio Gironás

Concentrator Plants and Port Manager, Candelaria and Ojos del Salado Mines, Lundin Mining, Chile

CO-CHAIR

Neil McIntyre

Program Leader, Regional Water and Land Resources, Centre for Water in the Minerals Industry, SMI, The University of Queensland, Australia

CO-CHAIR

Virginia Ciminelli

Director, National Institute of Science and Technology on Mineral Resources, Water and Biodiversity, INCT-Acqua, Brazil

EXECUTIVE DIRECTOR

Carlos Barahona

General Manager, Gecamin, Chile

TECHNICAL COORDINATOR

Jacques Wiertz

Professor, Universidad de Chile
