

Register for an Aquatic Facility Operator Course

The Aquatic Facility Operator (AFO) certification will provide you with the skills necessary to make your facility more safe and efficient. This two-day pool operator course will train candidates on the most important mechanical, chemical, operations, and risk management aspects of all pool and waterpark facilities.

Topics covered in the AFO course include:

- Filtration
- Disinfection
- Water testing and treatment
- Design considerations
- Facility management
- Facility safety
- Risk management
- Trouble shooting
- Hot tub and spa operation
- And more!

Who Should Attend

Aquatics Directors, Recreation Directors, Waterpark Directors, Pool Managers, Aquatic Supervisors, Resort/ Hotel/ homeowner association staff, and any staff members responsible for the operation, maintenance, or management of an aquatic facility.

Course Details:

National Recreation
and Park Association

Testimonials

“Best training I have ever been part of. **Very informative and instructor made sure everyone understood the material.** Great Instructor.”

“I really enjoyed this class and took **a lot of good information from it that I know I can use at work.** This class and the instructor were able to put the information into terms easy to understand and remember.”

“Really good instructor! I learned a lot. This course **helped to address some misunderstandings that I had and also to cement some things I’ve been doing right.**”
