

SURVIVOR

by Trunz Water Systems 

The SURVIVOR 300 is a light weight and compact watermaker installed in a shock resistant, non corrosive case, ready to plug in and run. All you need is a fresh water source (from a lake, river or borehole) and a 12 VDC power source from your RV battery pack or the SURVIVOR'S solar panels.

The SURVIVOR delivers approx. 180 liters of fresh water per hour. 100% free of viruses or bacteria.

Every SURVIVOR 300 is complete and includes a prefilter, an ultrafiltration membrane, an activated carbon filter and a diaphragm feed water pump.

 180 liters of fresh water per hour

 simple to use, ideal for mobile application

 exceptionally energy efficient

Dimensions	L x W x H	850 x 550 x 350 mm
Net. Weight (incl. batteries and panel)		51 kg
Filtration Technology		UF ultrafiltration membrane
Raw Water Source		lake, river, borehole
Contamination		low turbidity < 5 NTU, organic contamination, particles
Quality of produced water		potable water/virus and bacteria free
Application / Installation		mobile
Capacity		max. 180 l/h
Prefilter		175 micron
Membranes	1 pc.	ultrafiltration
Activated carbon filter	10"	20 micron
Power supply		12 VDC
Folded solar panel		135 Wp
Alternative: battery charger		100 - 240 VAC
Performance	incl. pump	60 W
VRLA-Batteries	1 pc.	12 V - 33 AH
Feed pump	diaphragm	max. 250 l/h
Feed pump pressure		3 bar
Tube packet		5 meter
min./max. water temperature		0/40° C
min./max. air temperature		0/60° C

Optional service kit

Membrane cleaner MC-1	5 pc.
Activated carbon filter	5 pc.
O-Ring Set	1 pc.

FREE OF BACTERIA AND VIRUSES!
