SMART Quality Objectives

S : SPECIFIC

To Provide **Specific** solutions to Customers problem.

M : MEASURABLE

To give **Measurable** efforts towards Customers issues.

A : ACHIEVABLE

To prove that the solutions to all the problems are **Achievable**.

R : REALISTIC

To provide solutions which are **Realistic**.

T : TIMELY

To provide **Timely** services to all our Customers.

Our Services

- **Industrial Construction Projects**
- **Industrial Tremix / VDF Flooring Services**
- **Shot Crete and Guniting Services**
- **Waterproofing System, Fire-Fighting System, HVAC System, Elevators & Escalators systems.**
- **Repairing & Strengthening Services.**
- **Industrial Fabrication Services**

Industrial Construction Services

- **Wide Variety of Industrial Construction Services**
- **Wide Variety of Industrial Construction Services**
- **Project Execution as per International Quality Standards & Norms**
- **Completion of the project within the minimal time frame**
- **Use of New and Innovative Technologies to deliver maximum quality & Customer Satisfaction.**

SHOTCRETE AND GUNITING SERVICES

Shotcrete and Guniting Services is the process of conveying desired mixer of dry cement, sand and /or aggregate under air pressure at high velocity with just sufficient quantity of water in process like rehabilitation, carrying out repair as well as for restoration works.

Industrial Flooring Services

Advantages of Tremix flooring or Vacuum dewatered flooring over the conventional flooring

Increase in the compressive strength by 40 - 70% (higher increase is at the top surface)

Increase in Wear Resistance by 100 - 150%.

Shrinkage of Vacuum treated concrete will be reduced by about 150%.

Strength gain in Vacuum concrete is earlier than normal way thus earlier utilization is possible.

Remarkable increase in frost Resistance

Reduced number of joints

Less wear and tear of floor surface

Tremix floor due to less water cement ratio , maintains a high abrasion resistance. With the help of surface vibrator, floater an even & uniform leveled surface is created; thereby saving cost of extra floor finish. Most suitable for factory floors, industrial roads etc.

INDUSTRIAL RCC WATER TANK CONSTRUCTION SERVICE

We provided Best quality Industrial RCC Water Tank Construction Service all over India

Repair & Rehabilitation services

At Envirotech Infra Projects, we offer an extensive range of Repair Rehabilitation Services to provide effective solutions for strengthening of structures. Structural failures due to normal ageing problem or unforeseen incidences like earthquake, flood, moisture, humidity with 100% professional approach with the help of advanced technical tool and devices, to achieve guaranteed accurate result in the day to day construction application
