

# Sustainable Water Treatment Solutions

Agriculture & Irrigation  
Food & Beverage Processing

## Specialists in Modular & Custom Built Water and Waste Water Treatment Solutions

Genesis Water Technologies designs, engineers, and commissions optimized modular water treatment solutions for process water and waste water reuse. We also provide processing optimization consulting services for existing water & wastewater treatment system processes.

We have the expertise and global reach to provide these specialized solutions and services to agriculture/growers and food & beverage companies to optimize water management, maintain regulatory compliance, and alleviate problems associated with water scarcity.

### For applications including:

- Ingredient Process water
- Waste water treatment and reuse

### Our Solutions & Services Offer You:

- Process Optimization for Water Management
- Modular Design for Environmental Footprint Reduction
- Lower Operating & Maintenance Costs
- Simple Integration into existing and new facilities
- Regulatory Compliance

Genesis Water Technologies provides maximum flexibility and value for our clients in the USA and around the world to assist them in dealing with environmental compliance issues and the challenges associated with water scarcity.

## Serving our clients specific needs

### Specialized Technologies include:

- Agro-Z Soil Enhancement Medium
- Zeoturb Bio-Organic Flocculant (Powder)
- Ultra filtration
- Reverse Osmosis Desalination for high salinity
- MBBR Biological Treatment Systems
- Specialized Electrocoagulation & E-OX
- Disinfection Systems (UV)

### Specialized Services include:

- Process Optimization Consulting Services

Genesis Water Technologies also provides technical support agreements, system spare parts and annual consumables agreements for our water & wastewater treatment solutions including:

- Filtration Media (Anthracite, GWT Zeolite & Activated Carbon)
- RO/UF Membranes & RO Anti-scalant
- Filter Cartridges
