5. Passionate about helping solve the world's water crisis
6. Team player
7. Online research skills
8. English mother tongue

About us: AquaSPE is a privately held Swiss AG located in the center of the beautiful old town of Zurich. We have the vision to drive innovative solutions to the world's water crisis by connecting the experience of professionals around the world.

www.TheWaterNetwork.org is the largest online community for global water professionals. Our objective is to connect organizations and professionals in the water sector to collectively provide safe water and better sanitation for everyone, everywhere. We aim to bridge the information gap between grassroots workers, researchers, technology experts and industry professionals.
