

ARTIFICIAL INTELLIGENCE TO REDUCE WATER LOSS (NRW)

DISCOVER SMARTACQUA

**A solution specially developed to
control and manage water loss.**

From day ONE, the system helps you
reduce water losses.
Quick to implement, easy to use.

STRATEGIC PLANNING

We generate strategic
plans based on
cost-effectiveness
of field actions

SERVICE ORDERS

Service orders are
systematically issued to
reduce water losses, including
pre-determining the
necessary resources

MANAGEMENT REPORTS

Easy to understand, our Dashboards
& Reports offer guidance to reduce
water losses in the field

WATER LOSS MANAGEMENT

We use artificial intelligence
algorithms to locate, quantify and
economically prioritize water
loss reduction actions

BUSINESS PROCESSES AND BEST PRACTICES

Benefit from real operating
savings with low TCO (total
cost of ownership) and
optimized operational
costs

HEATMAP FOR REAL AND APPARENT LOSSES

We help you reduce water
losses quickly and easily. Rely
on a specialized heatmaps of
potential real and apparent
losses for quick
action

ADVANCED SYSTEM ARCHITECTURE

We use best-in class Big Data
Analytics and Artificial
Intelligence to analyze water
distribution data
