

# Partial Scholarships AU\$ 7,000

Masters | Graduate Certificate | Graduate Diploma

## Integrated Water Management

Full-time or Part-time/distance\*

To support future water leaders, the International WaterCentre (IWC) will be offering a partial-tuition scholarship (valued at AU\$ 7,000) to each self-funded student who enrolls in an IWC Integrated Water Management postgraduate program (Masters, Graduate Diploma or Graduate Certificate) commencing in Semester 1, 2015.

### Availability

Partial scholarships are available to support self-funded domestic and international students who do not receive any full-tuition scholarship or full-tuition funding from their employer. Note: students who receive a loan (eg. FEE-HELP) or partial funding from their employer remain eligible for a partial scholarship.

To receive a partial scholarship, eligible students must receive an unconditional offer of admission from The University of Queensland (UQ) in the IWC Master of Integrated Water Management (or Graduate Certificate or Graduate Diploma) commencing in Semester 1, 2015 and have successfully enrolled in the program by February 2015.

### Value

Each partial scholarship has a total value of AU\$ 7,000 for the whole Masters program. It will be paid out progressively directly to The University of Queensland towards the program's tuition fees over three semesters of full-time study or six semesters of part-time/distance study. Recipients are responsible for paying the remainder of the tuition fees each semester and all other study-related expenses.

### Terms and Conditions

Please read the full [Terms and Conditions \(PDF\)](#) on IWC website.

### How to receive it

There is no separate scholarship application form. To receive a partial scholarship, simply:

1. [Apply for the program](#) through The University of Queensland
2. If admitted in the program, formally accept your offer, and
3. Enrol full-time or part-time/distance through [mySi-Net](#) (UQ's online enrolment system) as soon as enrolments open and before 31 January 2015.

### About the program

The IWC [Master of Integrated Water Management](#) takes a transdisciplinary, whole-of-water-cycle approach. It is custom-designed and taught by industry experts and academics from four leading Australian universities.

It equips students with the integration, leadership and managerial skills they need to create innovative, whole-of-water-cycle solutions to global water challenges.

The next intake will commence in February 2015 and the program can be completed in 18 months full-time or 3 years part-time/distance\*.

### Entry requirements

- A completed undergraduate degree in a related field of study from an internationally-recognised institution
- Demonstrated English language proficiency (please refer to The University of Queensland's English language requirements)
- Two years practical experience in a related field is preferred but not essential.

### Important dates
