

CAPABILITIES

- Applications span agriculture, food, industry, mining & municipal sectors
- Selective separation and recovery of matter from “all” types of process water streams
- Barrier filtration for process water reclamation, recycling, re-use and treatment
- Sludge thickening through removal of “free” water content
- Technology enabler for ‘Cleaner Production’ & ‘Closed Loop’ resource management
- Marine outfall protection
- Turnkey install features

DISCRIMINATORS

- Enhances clarifier, flotation, centrifuge, decanter & filtration plant performance
- Reliably handles troublesome stream loadings
- No backwash produced
- No chemicals required
- Small environmental footprint
- Greenfield, modular & mobile plant options
- Fast ROI opportunity

KEY CUSTOMERS

- Tyson Foods (USA)
- Peabody (AUS)
- Anglo Ashanti (RSA)
- Chevron (AUS)
- Fonterra (NZ)
- JB Swift (AUS)
- Inghams (AUS)
- Amongst other clients ...

KEY PARTNERS

- BioHoldings (Industry, NZ)
- FPE (Food, AUS)
- TekPro (Mining, AUS)
- Amongst other partners ...

QUALITY APPROVALS & AWARDS

- ISO/AS/NZ/CE design compliance
- ISO9000 QAS management compliance
- IEAUST & AWA technology awards (AUS)
- Artemis Project Top 50 Co 2x award winner (USA)
- Amongst other awards ...
