I have been asked to write a Cover Letter. About me. I find it difficult to talk about myself. I rather let others see me as a High Achiever, Spiritually Balanced, who sends love out into the Universe every day, I Love Myself first. Motivational Speaker, give to others and enjoy returns not necessarily from the person I've given to. I believe in a "Higher Power" which call GOD. The creator of the "Universe".

I am very proud of the Love I gave to a Family that I never received love from. It made me stronger, and tougher, I never gave up. As I can remember from five (5) years old until seven or eight years ago, I never "Stopped To Heal". Stop to Heal.

The challenges of life are exciting, and it seems we make our own. When we decide upon that which we desire to achieve, it must be kept between you, only those involved and in tune with the creator of the Universe. I write it down, I meditate, visualize it, I use positive affirmations, I see it, feel it and work long hours to bring it to fruition.

We may have all the knowledge, education, skills, experience, and know-how. Without Love, you have nothing. "Love is -The Greatest Gift-of all". Therefore, give your best, and most of all, give love in your voice, handshake, smile, your presentations, and Love to the Universe. Most of All, Forgive Yourself and Forgive those who hurt you.

Every Person, Place & Everything is "United in Love". We are one at home in the universe. Never forget:

My Thoughts About Events and People
Are Creating My Emotions
My Emotions Are MY Life
I Am Master Of My Thoughts

I hope I inspired someone in a positive way and don't forget, it's all about giving back to the Universe.

Nancy Underwood,

President

General Engineering Class "A" & Asbestos Contractor CSLB Lic: # 959387
