

Divu Envitec Product Data Sheet

DIVOXIDE

Single Component Disinfectant Powder

Technical Information

DIVOXIDE is a Single Component Chlorine Dioxide based biocide, present in powder form. Unlike the two components variant where there is mixing required, and the customer has to wait for at least 4 hours, the single component variant has been formulated in such a way that as soon as it is put in water, there is an instant activation, i.e. there is no waiting time required, and no hassle of mixing.

Typical Properties

PROPRIETARY DIVOXIDE

Single Component Disinfectant

- Appearance: White Powder
- Water Solubility: 100% Fully Soluble in Water
- Storage: Normal Conditions
- Chemical Stability: Stable under normal conditions of storage and handling
