

2nd JPI Oceans Conference

26 October 2017

Pavilhão do Conhecimento

Largo José Mariano Gago

Parque das Nações

1990-223 Lisboa

The Joint Programming Initiative Healthy and Productive Seas and Oceans (JPI Oceans) is a coordinating platform, open to all EU Member States and Associated Countries.

Vision: Enabling Blue Growth and jobs whilst fostering the health and productivity of seas and oceans and addressing the pressures posed by climate change and human impacts.

Mission: Providing a strategic policy platform for a long-term European approach to marine and maritime research and technology development. JPI Oceans adds to the value and impact of national research and innovation investments by implementing joint actions and aligning national priorities. These outcomes will help develop effective policies with robust and independent scientific evidence, helping underpin the ocean-based economy.

The 2nd JPI Oceans Conference

The 2nd JPI Oceans conference will present the first results of the actions and projects initiated under the framework of JPI Oceans and will provide an excellent opportunity for stakeholders from research and industry to network and discuss with policy makers from across Europe.

Partners involved in the JPI Oceans joint actions will discuss the outcomes, opportunities and future outlooks of their activities. The event will further highlight the international cooperation of JPI Oceans beyond Europe and results of CSA Oceans 2, the Horizon 2020 Support Action aimed to support the JPI.

Programme

25 October

16:30-18:30

Visit Lisbon Oceanarium

18:30-20:00

Reception - Lisbon Oceanarium

26 October

09:00-09:30

Registration and coffee

09:30-09:40

Welcome and introduction

- *Chair JPI Oceans Management Board*

09:40-10:10

Opening session

- *Manuel Heitor, Minister of Science, Technology and Higher Education, Portugal*

10:10-11:15

Session I: Joint actions JPI Oceans - Achievements & impact

Session chair: Kathrine Angell-Hansen, Director JPI Oceans secretariat

- Ecological aspects of deep sea mining
 1. MiningImpact project
Matthias Haeckel, GEOMAR Helmholtz Centre for Ocean Research Kiel (tbc)
 2. Future activities
- Munitions in the Sea
Emilio Campana, Management Board JPI Oceans - Head of the Engineering Department, National Research Council, Italy
- MarTERA ERA-NET Cofund on marine and maritime technologies
Filiz Aslan Project Management Jülich
- ERA-NET Cofund on blue bio-economy
Christina Abilgaard, Management Board JPI Oceans - Department Director, Research Council of Norway (tbc)
- Marine Spatial Planning
Pierpaolo Campostrini, Management Board JPI Oceans - Managing Director of CORILA (tbc)
- Q&A

11:15-11:45

Coffee break

11:45-12:45

Session II: Joint actions JPI Oceans -Achievements & impact

Session chair: tbd

- Ecological aspects of microplastics:
 1. BASEMAN project
Gunnar Gerds, Alfred-Wegener-Institute
 2. WEATHER-MIC project
Annika Jahnke, UFZ Leipzig
 3. PLASTOX project
Andy Booth, SINTEF
 4. EPHEMARE project
Ricardo Beiras, University of Vigo
- Intercalibration for the EU Water Framework Directive
Wendy Bonne, Science-Policy Officer, DG Environment, Marine Environment Service, Belgium
- Climate change and ocean acidification
David González, Management Board JPI Oceans - Ministry Of Economy And Competitiveness, Spain (tbc)
- Marine calibration network
George Petihakis, Associate Researcher Institute of Oceanography of the Hellenic Centre of Marine Research (tbc)
- Food and nutrition security
- Q&A

12:45-13:45

Lunch

13:45-14:30

Pitch presentations Marine and Maritime ERA-NETs - BONUS - Bluemed

- BONUS
- COFASP ERA-NET
- Marine Biotechnology ERA-NET
- BiodivERSa ERA-NET COFUND
- BLUEMED
- MARTEC II ERA-NET

14:30-15:40

Parallel sessions

PARALLEL SESSION I	PARALLEL SESSION II	PARALLEL SESSION III	PARALLEL SESSION IV
Looking beyond Europe: International cooperation in research funding	Beyond dissemination: Creating impact with marine science communication Ana Noronha, Executive Director Ciência Viva	Open science clinic: An introduction to terms and operation of Open Access and Open Data Jan-Bart Calewaert, EMODnet, Ivo Grigorov, FOSTER+ Stephane Pesant, OpenAIRE CONNECT	Maritime technologies - Collaboration with industry

15:40-16:00

Coffee break

16:00-17:00

High level panel session

Chair: Vladimir Ryabinin, Executive Secretary, IOC-UNESCO (tbc)

17:00-17:30

Closing session

- *Carlos Moedas, European Commissioner for Research and Innovation (tbc)*
- *Ana Paula Vitorino, Minister of the Sea, Portugal (tbc)*
- **Future outlooks and opportunities for JPI Oceans**
Chair JPI Oceans Management Board

The CSA Oceans 2 project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 696324
