# Project Overview and Scope Summary

<b>Area of Water Technology Focus:</b>	Desalination Smart Water	Reuse Other	Conservation
<b>Type of Project</b>	Demonstration of New Technology Demonstration of Existing Technology/ Scalable Demonstration of Non-US Technology Demonstration of Operational Process/Technique Other:		
<b>Sector Focus of Project</b>	Industrial Agricultural Manufacturing Other	Residential Water Utility	
<b>Intended Geographic Market</b>	Urban	Rural	Both
<b>Stage of Technology</b>	Proof of Concept Final Prototype Upgrade, Next Generation Capacity Scaling Mature - Refinement with New Capability Mature - System Improvement Mature - Convert to Water-Related From Other Focus Other		
<b>Ownership Status of IP?</b>			
<b>NDA Required, Requested?</b>			
<b>Additional IP Sought?</b>			
<b>Program, Project Addresses</b>	Yes		
<b>Regulatory Issue?</b>	If Yes, Citation of Regulation or Rule Provided No		

**Quality, Quantity, and/  
Source Water Required for  
Evaluation**

**Initial Equipment,  
Infrastructure, Utilities, and  
On-site Support Required**  
(including pre-and post test  
chemistry, engineering, safety,  
operational)

**Current Permits, Insurance,  
Bonding, and other Local,  
State and/or Federal  
Compliance documentation  
available or required?**

**Stand-alone Evaluation,  
Demonstration or Seeking  
Integration of Technology  
with Other Products,  
Services**

Please note: in anticipation of executing a demonstration site agreement, AccelerateH2O and its partners require a thorough review of the *Innovative Demonstration Framework* - provided in the next phase of discussion - to be accepted. Said framework includes Safety and Risk Mitigation Standards, Non-Disclosure of IP, Milestones and Schedule, and similar documentation for a best-in-class implementation.

In turn, the Innovative Demonstration Framework will present a *Fee-For-Service Model* to conduct the demonstration as agreed-upon to meet client expectations and results. The costs associated with the Fee-For-Service Model includes both on-site and off-site engagement with your team, and provides for the associated support of a full-time project manager assigned by AccelerateH2O. Additional said fees address required safety, regulatory, health, and operational oversight of the demonstration activities.

# Partnership Resource & Assistance

---

**Program / Project Name**

**Existing Funded Amount?**

**Source(s) of Budget?**

**In-Kind or Budget Offsets?**

**Unfunded Amount or Gap?**

**Existing, Desired R&D Tax Credit?**

---

**Use of Proposed Funds**

**Type of Non-Financial  
Assistance Requested**

**Program, Project Period From**

**Program, Project Period To**

**Multi-Year?**      Yes      No

---

**Describe interest in  
participating in  
Demonstration Technology  
Showcase, Investor and  
Procurement Forum, and/or  
similar post program, project  
knowledge-sharing of general  
outcomes and results?**
