

Fast. Simple. Secure.
Automated Water Metering Infrastructure

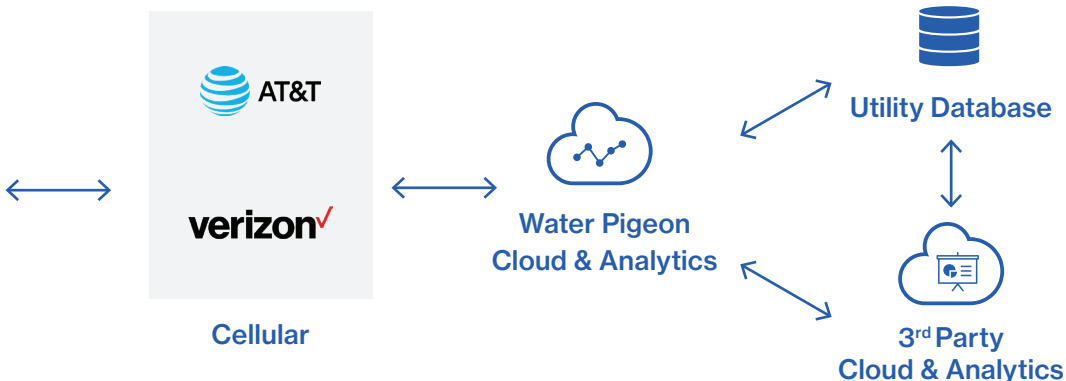

Water Pigeon is an innovative alternative to traditional AMI/AMR water meter reading.

HOW IT WORKS

Water Pigeon integrates AMI into the water meter lid or Pigeon Nest and uses a combination of optical character recognition (OCR) and the cellular networks for reliable data communications.

Pigeon Nest

APPLICATIONS

Water Pigeon reads potable and recycled water meters for public and private utilities and submetering companies. Applications in those markets include:

- Residential
- Commercial & Industrial
- Wellhead Meters
- Fire Meters
- Mobile Applications
- Water Loss Auditing
- Construction Meters
- Difficult Access Applications
 - Confined Space
 - Remote Sites or Locations
 - Restricted Access

Fast. Simple. Secure. Automated Water Metering Infrastructure

WATER PIGEON BENEFITS

- Works with existing meters
- Uses existing cellular infrastructure
- Rapid deployment
- Avoids customer outages
- Low capital cost
- Low life-cycle cost

SYSTEM FEATURES

Leak Detection
