

## Newsletter

Dear Subscribers,

**20 October 2016**

Looking for innovative water technology? Join our new [Technology-Investment Matchmaking](#) community! In the first day already 81 exciting companies are listed who are looking for pilots or investment.

You are invited to [browse them all by category](#) and specific tags.

Are you looking for technology to pilot, or equity investment? If so, you are invited to list your company, just select "+COMPANY", fill out the form and save. Qualified companies will be Featured based on feedback from our technology and investment experts.

Happy networking!

Kind regards,

Vishakha Rajput  
COO, The Water Network

### Trending Technology

---

#### WAVVE Nutrient Recovery Filter

Wavve produces a cost-effective filter that recovers harmful nutrients, such as like harmful phosphates and nitrates. It is a sustainable gel from shrimp shells. It is still in testing phase but shows promising results.
