[Q&A: Micro Sewage Treatment Station for Household Wastewater](#)

Does anyone have any available technology for treating wastewater generated from approx. 10 households? We are actively looking for these micro sewage treatment stations to be provided to remote areas.

[Expert Blog: WASH in Low Income Urban Communities](#)

WSUP and WEDC have jointly developed a Masters-level professional training module, 'Water and Sanitation for Urban Low-Income Communities'. The course aims to fill a gap in professional training on WASH for low income communities.

[Expert Blog: Wanted: A Few Good Leaders](#)

Protecting Arizona's water future will require our elected officials to lead us forward the way past generations took charge when it mattered before. There is no better example of the kind of leadership needed than was exhibited in the passage of the 1980 Groundwater Management Act .

[Expert Blog: "Above-Ground Qanat"](#)

Converting a barren ravine/valley into a cultivated oasis. It is a free concept to apply. There are many measures for storing rainwater, but in this article a new concept is introduced for pilot trials worldwide.

Featured Events
