Wet Infrastructure Summit 2018

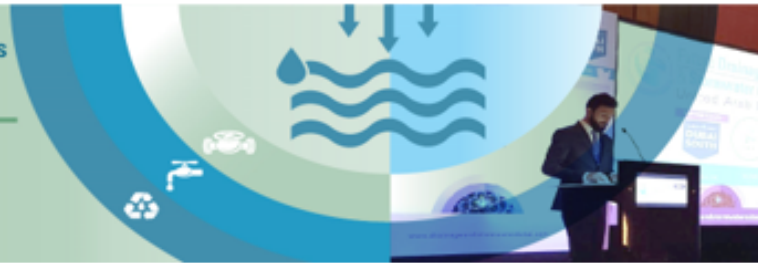

02-03 May /

Yas Island, Abu Dhabi - United Arab Emirates

WATER PROJECTS' OPPORTUNITIES AND CHALLENGES IN THE MENA REGION

Water Supply - Treatment & Storage
Flood Management - Drainage - Stormwater
Desalination Facilities

2-3 May 2018 | Yas Island, Abu Dhabi

The region has over the years gained experience in mitigating and managing the risks that threaten water supply.

The "**Wet Infrastructure Summit 2018**" details opportunities and requirements for designing, constructing, refurbishing, operating and maintaining effective, sewage, drainage networks, treatment, coastal restoration and maintenance of all water assets in the Region.

**Over \$30 Billion Project Opportunities for the Water Industry in the
Region**

Projects in each country
